

Attendees: Kent, Jim, Joan, Arnold, CW, George, Pete

1. Upcoming Presentations

Sep 27 - Pages vs Word, with Joan King

Oct 25 - Apple Notes (plus Control Center?) with George Wilde
future:

- Wallet/Applepay - substantial interest at meeting
Glen says he can do it as a beginners topic, would be a better main topic IMO; George says there may not be enough material for a main topic; Arnold will look for a YouTube or screencast video
- Pat Dengler will team up with Allison for a future presentation
- Mind Map software (iThoughtsX) by Kent - Allison has a screencast on this, Kent has bought the software
- SVMUG has used Adam Christianson of The Maccast as a presenter; he's a podcaster, lives in San Diego; Kent will contact him
- Tom Thorpe has two 15 min presentations, WiFi (In)security and VPN (In)security - his next availability will be October; he prefers to do them back to back, but that is not required
- iOS Control Center, Today View, Notifications - beginners session or main presentation? - major changes coming in iOS11
 - Combine 3 or 4 of Don McAllister's Tips into one presentation
 - Presentation via Skype (with A Christianson, for example) - we have not figured out how to do this

2. Survey - would be nice to find out what OS and iOS versions members are using, also members favorite apps, reasons for attending or not attending meetings. Survey options are Survey Monkey (free for up to 10 questions and 100 responses), Dreamhost, MUG website.

3. Ambassador - Apple web page had finally been updated

4. Meeting attendance is falling. Some think live presentations draw a bigger crowd than videos.

5. Membership = 96, Net \$ = -213 for year.
