

South Bay Apple MUG Macintosh

vol 20, issue 9 **October 2020**

A Monthly CUPFUL for South Bay Apple Mac User Group Members

Request for Nominations for Directors

Club members vote to select a slate of officers every December. Members may nominate anyone, including themselves, to be an officer - President, VP, Treasurer, or Secretary. These are all volunteer positions. We also need other volunteers to assist with the newsletter, membership, programming, and member development. Please consider volunteering! Send nominations to the current President (Kent) at rkmcdonald360@gmail.com or share them at the October 28th meeting.

The Slate of Officers will be announced in the November newsletter; members will have an opportunity to vote for them at the December 9th meeting.

October 28, 2020 - request for nominations for club officers

No Meeting in November

December 9, 2020 - vote for officers

Wednesday, September 30th Virtual Meeting

The September 30th meeting will be held virtually via Zoom since the VFW Hall remains closed. A Zoom meeting invitation will be sent to everyone who is signed up on the club's email list (everybody@sbamug.com). **When you receive the Zoom invitation email, it's a good idea to save the link to your calendar so that on the day of the meeting, you can find it more easily.** To be added to the mailing list, follow the instructions at <https://www.sbamug.com/our-sbamug-email-group/>

To join the Zoom meeting, click on the link provided in the invitation email. This will allow you to install the free Zoom app. The meeting invitation will also include a meeting ID and password, which you may need.

The meeting will begin with the Beginners Q & A session at 6:30 p.m. and everyone is encouraged to participate. Announcements by the Club President will follow, with the main presentations beginning about 7:30 p.m.

Here are the topics for the September 30th meeting:

George Wilde will share some videos about the most significant changes and new features of the iOS 14, iPadOS 14, and watch OS 7 updates.

Arnold Silver will present these topics:

- A few hints to easily get the most out of Apple's Mac, iPhone, and iPad
- Why I use Apple's free, built-in software, rather than third-party applications
- Command-Tab reveals open applications on a Mac
- Get the most from Apple's 'Contacts'
- How to download 'files' from Safari on iPhone and iPad

Welcome to the SBAMUG!

(South Bay Apple Mac User Group)

Members, friends and colleagues are invited to attend our monthly meetings (usually the last Wednesday of the month). The \$35 annual membership dues entitles you to receive this monthly newsletter by mail and online, plus many more benefits (see page 8). Visit sbamug.com to become a member or to get more information. **Note:**

September meeting will be held virtually via Zoom.

SBAMUG Virtual Meeting Format:

6:30-7:30 p.m. Q & A Session, and Sharing:

Everyone welcome, beginners encouraged

7:30-7:45 p.m. Announcements, short break

7:45-9:00 p.m. Presentation

SBAMUG Monthly Calendar:

September 30: George will discuss major changes and new features from Fall releases; Arnold will briefly discuss a variety of topics

Mark your calendar: Meetings on October 28 and December 9. *No meeting in November.*

Membership Report: 71 members (as of 8/31/20)

Welcome, New Member: Carl Paquette

Thank You, Member Renewals:

Jan Chesne, R. Kent McDonald, Nancie Silver, Don Barnes

Membership-related Information/Questions:

Contact CW Mitchell at cwmitchell@sbamug.com

- for information about membership, dues and benefits
- if your name is misspelled or the expiration date is incorrect on your membership card

Three EASY Ways To Renew! Watch for your renewal letter.

- 1 - Sign and date the form and return with a \$35 personal check or cashier's check, payable to SBAMUG, using the enclosed self-addressed envelope; or
- 2 - Pay online using PayPal at sbamug.com/join-sbamug/
- 3 - Bring form and payment to meeting, once they resume

At in-person meetings, please wear your membership card as a name tag. Your first name is larger so it's easier to read.

Virtual Meetings: Online via Zoom

In-Person Meetings: Lomita VFW Hall

September 2020 Shareware

Six items this month. The emphasis is on graphics programs this month.

CADintosh X8.6: 2D-CAD program for technical / architectural drawings. This one has been around for a while. Same developer as GraphicConverter. Import and export HPGL, DXF, and PICT. Note that this is not for beginners, you should have mechanical drafting experience. Mac OS 10.9+ \$32.00

<https://www.lemkesoft.de/en/products/cadintosh/>

Creative Convert 1.4.1: This can convert PDF, Adobe Illustrator, Adobe Photoshop and/or EPS documents into BMP, TIFF, JPG, PNG, BMP, TIFF, JPEG and PSD images; as well as many of these to the PDF format. OSX 10.11+ \$4.99

<https://splashroad.com/creative-convert/>

GraphicConverter 11.2.2: GraphicConverter is an all-purpose image-editing program that can import 200 different graphic-based formats, edit the image, and export it to any of 80 available file formats. Continuous feature updates and bug fixes. OSX 10.11+ \$39.96

<https://www.lemkesoft.de/en/products/graphicconverter/>

Moneydance 2019.3: This is a personal financial management application that includes features such as online banking, online bill payment, investment management, budget tracking, scheduled transactions, check printing, detailed graphs, reports and much more. OSX 10.11+ \$49.99

<https://infinitekind.com/moneydance>

Mochi 1.6.5: Flashcard program with spaced repetition. Uses the markup language for notes and cards OS 10.10+ Free

<https://mochi.cards>

Yate 6.0.1.1: Lets you tag your audio and video files. Supports audio in AIFF, APE, DFF, DSF, FLAC, OGG OPUS, OGG VORBIS, M4A, M4B, MP3, MP2, MP4, STEM.MP4, WAV and WV files. Supports video in M4V and MP4. Comment files and keep track of the number of plays. OS 10.10+ \$20.00 <https://2manyrobots.com>

See you at the September meeting online.

Jim Pernal PD Editor

Tips and Tricks From OS X Daily

OS X Daily is an Apple-centric free service and website since 2006. Even though the name is “OS X”, it covers OS X, iOS, Macs, iPhones, iPads, APPLE TV, Apple Watch, etc. I get a daily email containing one or two tips about Apple devices, including trouble-shooting. Some tips provide detailed steps for fixing or avoiding problems. Details can be accessed at <https://osxdaily.com>.

Do you use Apple’s built-in Keychain to securely manage your passwords on your Mac and iOS devices? If so, you might want to create new keychains.

If you have trouble with an Apple device or software, you can contact Apple support. OS X Daily provides tips to more quickly get access to the help you desire on the phone.

If you have an Apple Watch, you know it comes with default Apps installed. But you can also install any App on your iPhone. They show how to install or remove Apps on your Watch. They also show how to “force quit” Apps on your watch if necessary.

Do you know how to Undo & Redo on an iPhone or iPad with Gestures? I didn’t. They show you how to do it.

Sometimes, when preparing to install an iOS software update, the device gets stuck overly long “Preparing Update”. OS X Daily shows you how to solve this problem.

I will try to provide new tips and updates from OS X Daily monthly. You can go to their website highlighted above for more information on a subject of your interest.

Do you get confused by all your different Mac message conversations?

If you have lots of message threads going on in your Mac’s Messages app, it can be hard to keep track. Click on “Details” in the top right corner of a conversation and you can name the thread for reference.

Here is an article about the announcements made at Apple's 'Time Flies' Event

iOS 14, iPadOS 14, watchOS 7, and tvOS 14 Now Available

As Apple promised during its September "Time Flies" event, the company has released iOS 14, iPadOS 14, watchOS 7, and tvOS 14. All the updates add exciting new features, but it would be wise to wait at least a week or two before installing in case any major bugs snuck through beta testing. Also, many developers were caught by surprise by Apple's sudden announcement, so it may be a few days before your favorite apps are ready for the new operating systems.

iOS 14

The iOS 14 update adds the new App Library (see "[iOS 14's App Library: The FAQ](#)," 9 September 2020), Home screen widgets, new compact UIs for incoming phone calls and Siri, and more—see "[iOS 14 and iPadOS 14 Echo Android and Newton](#)" (22 June 2020) and [Apple's \(mostly\) full release notes](#). And of course, you can learn about all the new features in detail in [Take Control of iOS 14 and iPadOS 14](#). I'm pretty happy with the state of the book, but we will be putting out a free update soon to address reader questions about App Library and add some late-breaking information. iOS 14 is compatible with the iPhone 6s, the first-generation iPhone SE, the seventh-generation iPod touch, and later.

The update weighs in at 4.79 GB on an iPhone 11 Pro. You can install the update by going to Settings > General > Software Update in iOS, through iTunes on Macs running versions of macOS prior to 10.15 Catalina, or through the Finder in 10.15 Catalina.

iPadOS 14

iPadOS 14 does not feature the App Library or Home screen widgets, but it offers new capabilities for the Apple Pencil, such as the Scribble handwriting recognition feature, and many redesigned apps. See "[iOS 14 and iPadOS 14 Echo Android and Newton](#)" (22 June 2020), Apple's [iPadOS 14 feature list](#), and [Take Control of iOS 14 and iPadOS 14](#). iPadOS 14 runs on the fifth-generation iPad, iPad mini 4, iPad Air 2, and later, plus all versions of the iPad Pro.

The update clocked in at 3.58 GB on a 10.5-inch iPad Pro and 2.16 GB on an original iPad Air. You can install the update by going to Settings > General > Software Update in iOS, through iTunes

on Macs running versions of macOS prior to 10.15 Catalina, or through the Finder in 10.15 Catalina.

watchOS 7

watchOS 7 includes already known features like sleep tracking and a hand washing timer (see "[watchOS 7 Introduces Sleep Tracking, Handwashing Detection, and More](#)," 22 June 2020), but Apple announced [additional features](#) at its "Time Flies" event, including many new watch faces for the Apple Watch Series 4 and later, watch face sharing, and the new Family Setup feature that lets you set up a watch for a family member who lacks an iPhone (though they must have a cellular Apple Watch 4 or later).

watchOS 7 is available for the Apple Watch Series 3 and later.

To install the update, which was 987 MB on an Apple Watch Series 4, open the Watch app on your iPhone and go to My Watch > General > Software Update. Note that not only will the download take a while, but the iPhone then has to transfer the update to your Apple Watch through Bluetooth, which can take a couple of hours. Then, to finally install the update, the Apple Watch must be at 50% charge or greater and connected to a charger. We recommend doing this at night.

tvOS 14

Last, and to be honest, least (Apple didn't even publish a page with new features but [tagged them on to the Apple TV 4K page](#) and the Apple TV User Guide has a [full list](#)), tvOS 14 has some welcome features including Home shortcuts in Control Center, a picture-in-picture option that works with apps other than Apple TV, AirPods audio sharing, 4K video support for YouTube (assuming YouTube cooperates), and more (see "[Here's What Next for tvOS 14 and HomeKit](#)," 25 June 2020). I hope to release an updated version of [Take Control of Apple TV](#) soon, with an update to [Take Control of Apple Home Automation](#) later in the year.

tvOS 14 supports the Apple TV HD and Apple TV 4K.

To install the update, go to Settings > System > Software Update, or just let it install on its own at some point in the future.

Tiny Tip – How to Use Your iPhone or iPad as a Viewer for Negatives

My neighbor Rick just taught me an awesome trick. His wife is scanning in photos and also has a lot of negatives to sort through. As Billy Bob Thornton said in Bad Santa, “They can’t all be winners”, so she wants to find just the really good negatives to be scanned.

The problem is that negatives are very hard to judge with the colors inverted. For some reason our brains simply can’t swap the colors in our heads. I have no idea how he thought of this idea, but he figured out how to use an iPhone or iPad to view negatives in their proper colors. Open Settings, Accessibility, Display and Text Size and find the setting entitled Classic Invert. Toggle it on. Your iOS device will now look very weird, but if you launch the Camera app and pretend you’re going to take a photo of the negative, you’ll be able to see the negative with the colors just as they would be if you printed it. I completely understand why this works but it’s still crazy to see it actually work!

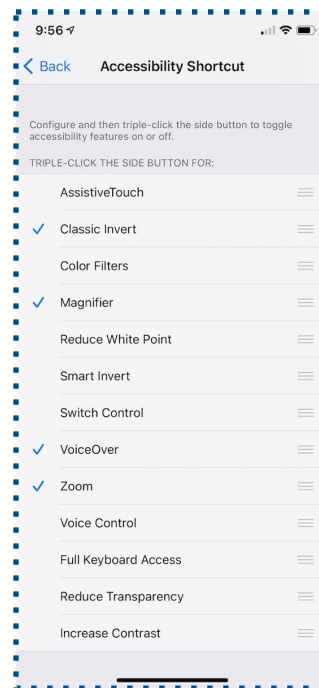

Negative Viewed Normally is Hard to View

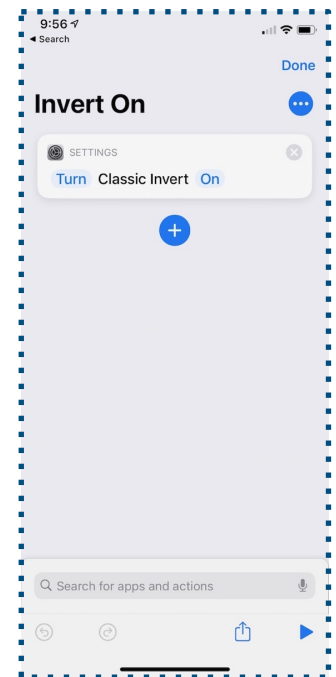

Negative Viewed Through iPad Camera with Inverted Colors Looks Normal

Rick went on to explain that it was tedious to keep going in and out of Settings and digging down to Classic Invert, so he created a Shortcut for it. It’s quite simple to create yourself. Open Shortcuts, tap the + sign to create a new Shortcut. Search for Settings and in that surprisingly short list you’ll find Classic Invert. When you select it, it will add “Turn Classic

Invert On”. He saved his Shortcut with the name “Invert On” and now he can simply use Siri to say “Invert On” when he wants to view a negative. He created a second one with the same Classic Invert, but toggled the “on” to “off” and named it “Invert Off”.

Rick’s Siri Shortcut

Accessibility Shortcut Triple click

While his Siri Shortcut is brilliant, I thought of another way to speed up the toggling of Classic Invert. Open Settings, Accessibility and scroll all the way to the bottom. You’ll see Accessibility Shortcut. Select it and you’ll see a dozen or so accessibility features you can enable by triple clicking the power or home button.

When you have just one option selected as I just described, the triple click of the power or home button will toggle that feature on and off. You can also select several options and then a triple click will show you the options and you can toggle the one you want. I keep VoiceOver, Magnifier and Zoom in my list, but I just added Classic Invert and now I can toggle it on and off if I want to view negatives.

I am tickled with such an innovative solution and even more tickled that my friend Rick figured it out.
