

SBAMUG February Meeting: Interesting Mac Items

- Use Continuity Camera plus iPhone to scan material into Notes on a Mac
- Use DuckDuckGo as the default search tool on Safari for privacy
- Silicon will identify Mac apps that will run natively in the new M1 Macs
- TODOIST is a smart to-do-list and project manager
- Use CopyQ as a smart replacement for the default Mac clipboard
- For occasional VPN needs, use Tunnelbear on Mac or iPhone
- Use VLC to open/play virtually any video format
- Handbrake can convert old home-movie discs into Apple-friendly format
- Use Unarchiver to open any compressed format, Zip, RAR, LZH...

- Use iMazing 2 to manage all of your media files
- Use Wi-Fi Explorer to troubleshoot your local network
- New GaN Chargers provide 60 to 200 watts smartly for multiple devices
- Apple Support-Article Links:
 - macOS Recovery bit.ly/mlrecovery
 - Safe Mode bit.ly/mlsafemode
 - Reset SMC, NVRAM bit.ly/mlresetnvram
 - Hardware Test bit.ly/mlahwt
