

attendees: Nancie, Arnold, CW, Jim, George, Joan, Kent, Pete

1. July 28: main presentation will be Kent on new (last 6 months) Apple hardware

2. Jim is waiting for input from Dr Dave. Keith Cambra is another contact. Jim now has newsletters going back to 1991.

3. Jun 30 Zoom problem may have been due to CW starting another meeting. Will avoid this in future.

4. CW solved his printer problem using IPP.

5. Eric Nilsson is not getting newsletter. Kent or CW will see if he is on "everybody" list.

6. Tina says VFW is open, but core group consensus is that we will wait awhile before returning.

7. In-person meeting simultaneous with Zoom:

- Verizon Jet Pack is alternative to hotspot.
- How many iPhone bars at VFW?

- Hotspot is a way to bypass poor VFW wi-fi. Kent and CW will investigate.
