

Minutes from 4/5/22 core group meeting

1) April meeting topic - Jim will first discuss the Mac OS Sidecar and new Universal Control that will let you use your iPad and/or other Mac computers as additional displays without needing to buy and connect other monitors. Next he will briefly discuss monitor specs and buying decisions. Links to monitor buying guides will be given. Then he will discuss the various types of ports on macs to connect displays. Finally some example hookups will be shown.

2) Set our Nov/ Dec meeting dates -
No meeting in November
Meet on December 14 (vote on Slate of Officers)

3) Discussion of SBAMUG club future and meetings (zoom or in person) - at this point, continue with zoom. Have an in-person gathering during late summer or early fall. Marine's idea for in-person meeting: Show and Tell - people can bring their old equipment and talk about it

4) Possible consolidation with other local user groups - Apple doesn't support user groups; no action suggested at this time

Gorge said he will be happy to make a presentation at June club meeting about highlights from the 2022 WWDC June 6 keynote address
